

NJHIMSS SPRING EVENT

Healthcare Reform School

EVERYTHING HIT AND OTHER HEALTHCARE LEADERSHIP NEEDS TO KNOW ABOUT HEALTHCARE REFORM

With the passage of the ARRA/HITECH Act and the Healthcare Reform package a new era in healthcare has begun. By investing in information technology across the continuum of care, coupled with requirements to leverage this information, the federal government has sent a clear message that seismic changes are coming. This program is designed to review what is included in the reform package, a specific New Jersey HIT project update review related to federal HITECH Act funding and a review of various state projects that typify this reform transition along with their HIT impact and implications.

May 26, 2010

Holiday Inn, 399 Monmouth Street, East Windsor, NJ

(Route 33)
